## FIRE!

Kendallville Has a \$50,000 Blaze.

The Best Business Part of the Village Entirely Swept Away—The Losses are Given.

A Big Wisconsin Furniture Factory is Burned and 350 Men are Out of Work.

### A BIG BLAZE.

Kendallville Was Almost Destroyed Last Night.

KENDALLVILLE, Sept. 10.—The city was aroused, about midnight last night, as it never, probably, was before by the cry of fire! fire! and the alarm bells. The fire when discovered was blazing out from the rear of Lohman's drug store, on Main street, the sixth door south of the Kelly House. A number of citizens with buckets were soon there, and the chemical engine, spouting against the rear windows, and after the fire broke the glass, partially into the building, but with no effect whatever until almost daylight, when the fire wasted itself.

The fire raged and leaped from building to building until it looked as though the whole town was doomed. The ground is fire-swept around the Kelly house, across the block on the east, and half the block on the south. The house itself is badly scorched and but for the iron shutters on the south side, would have went with the rest.

An immense quantity of merchandise was carried out of nearly all the commercial houses, and piled upon the opposite side of the street.

It is impossible to make an accurate report of all the losses and losers, but by making estimates from our best information, and reporting the insurance known, the following may approximate the reality:

Arnold estate, loss, \$1,500; insurance, \$1,000.  
H. L. Helman, loss, \$300.  
Ward & Fetter, loss, \$10,000; insurance, \$7,000.  
Lewis Iddings, loss, \$4,000; insurance, \$3,000.  
Mrs. Swartz, loss, \$4,000; insurance, \$2,000.  
Dr. A. S. Abell, loss, \$4,000; insurance, \$1,000.  
L. S. Abell, loss, \$3,000; insurance, \$2,000.  
G. H. Lohman, loss, \$6,000; insurance, \$2,000.  
Dr. S. T. Williams, loss, \$2,500.  
Brust estate, loss, \$4,000; insurance, \$300.  
John Emerson, loss, \$2,500; insurance, \$300.  
S. F. Severance, loss, \$1,000; insurance, \$1,000.  
G. P. Alexander, loss, \$500; insurance, \$2,500.  
Hall & Loeb, loss, \$1,500; insurance, \$1,000.  
T. L. Graves, loss, \$500.  
M. M. Bowen, loss, \$300.  
Banta Green, loss, \$1,000.  
Kelly house, loss, \$1,000; insurance, \$1,000.  
C. Tryon, loss, \$300.  
Baker & Son, loss, not known.  
Mrs. Bates, loss, \$300.  
Carpenter Bros., loss, \$100.  
Total loss, \$50,000.  
It was heroic work that saved the Kelly house.  
The wooden shanties in the rear of good buildings is what played the mischief.

The cause of the fire is unknown. The citizens generally worked heroically. A fairly good fire engine could have saved the wreck. There are many sad cases among the sufferers.

### FIRE RECORD.

SHEBOYGAN, Wis., Sept. 10.—The main building of the Mattson furniture company's factory burned early this morning. Loss between \$50,000 and \$60,000; insurance between \$35,000 and \$40,000. Three hundred and fifty men made idle.

### A Negro Lynched.

WAY CROSS, Ga., Sept. 9.—An unknown negro was lynched, Wednesday, for an attempted outrage on Miss Williams, a daughter of a prominent planter. Two companions escaped, but will be lynched if caught.

### DR. J. W. YOUNGE.

His Symptoms are Worse This Morning and Inflammatory Fever Manifests Itself.

Interest in the Swann-Young shoot-ing affray continues unabated. Public sentiment is divided between the principals and most extreme and radical views are expressed on both sides.

Last night Dr. Young had two chills and these are indicative of arising trouble. The consulting surgeons, Drs. W. H. and H. S. Meyers, Dr. A. E. Van Buskirk and Dr. Barnett, met at Dr. Young's home and found indications of inflammation and approaching fever in the abdominal region. There is much tension manifested and the trouble seems to develop in front, as the wound in the back has a healthy appearance.

"Then you consider him worse?" was put at Dr. Van Buskirk.

"Yes," was the reply. "He is much worse and the case presents a dangerous aspect. His temperature is increased to 101, a degree and a half higher than yesterday, and his pulse is 96. The patient is in both a dangerous and exceedingly bad way."

"Dr. Young is worse," said Dr. H. S. Meyers, "and there are symptoms of fever and constitutional trouble that menace his recovery severely. I should not say he must die, but I cannot assure you of his recovery."

Prosecuting Attorney Dawson says that Captain Swann's case will come before the grand jury to-morrow, when he will ask for an indictment against him for attempting to kill Dr. Young. The charge of murder can be sustained if Dr. Young dies inside of a year and one day. Captain Swann prefers to await the state's attorney's pleasure and remains in Sheriff Nelson's custody.

### Fruit Social.

The Mission Band's fruit social held in the parlors of the Third Presbyterian church, proved a success on last evening. The performance consisted of music and recitations on missionary lands and the customs of the people. The band had several weeks ago distributed "mitte boxes," for the collection of money in its interest, and which were found to contain \$22. The proceeds go toward the support of a Laos girl. The Mission Band are greatly encouraged in their noble undertaking and grateful for the hearty and substantial aid received.

### LOCAL LINES.

The Adams county fair is in progress this week.

State Auditor Rice has gone to Cincinnati to be treated for rheumatism.

Officer Limecooly arrested two men this afternoon for stealing a suit of clothes from Frank Rogers, of Hanna street.

The weather indications for Indiana are local rains followed by fair weather in northern portion, fair weather in southern portion, slightly cooler, westerly winds.

The business of the state pension office has increased so much that Agent Zollinger finds himself crowded for room. If he is not tendered quarters in the new state house, he intends to try to secure the rooms now occupied by the secretary of state, when that official moves to the new capitol building.

Dan Smith for entering the residence of Ezra Horn, of Springfield township; John B. Clark, for stealing a hat from Dr. Loag's office; Wm. Millager, Garr creek ranger; Frank Lomas, for stealing a pair of pants from Mr. Roberts; Wm. H. Brown, for stealing a gold watch from George E. Wilson, were indicted by the grand jury this morning and this afternoon were arraigned for trial before Judge O'Rourke.

Hon. Charles McCulloch, chairman of the democratic county central committee, will issue, to-morrow, a call for an election, to be held September 18, to select an additional committeeman for each unrepresented voting precinct in the city, and also in townships that have two voting precincts, such as Wayne, Washington and Pleasant. This will swell the county central committee membership twelve, making a total of forty-two.

The Wabash, if reorganized as proposed, will begin its career anew under a heavy burden. At best its funded debt will be \$75,000,000 in round numbers; in addition there is a floating debt of \$7,000,000, of which amount the court has already decided that \$4,000,000 must be paid before the reorganization scheme can be perfected, and the remaining \$3,000,000 are unadjusted claims, a large portion of which the new company will themselves have to pay.

### THE COMING FAIR.

The Attractions of the Week—Some Fine Races Assured.

The taps of hammers and the buzz and rasping of saws in the hands of workmen greet the ear of the visitor this week at the attractive grounds of the Inter-State Fair association. The fair managers, exhibitors of agricultural implements and the holders of lunch and dining room privileges, are all busy building, painting, whitewashing, and in every way pushing the work necessary to be done before the great opening day, September 14. The managers and exhibitors in the perfection of these arrangements are a week ahead of any preceding year, and on Tuesday morning next the fifth annual Inter-State Fair and Exposition will open to the public. Completeness in every detail will characterize the fair this year. The exhibits, in every department, and especially the agricultural implement and mechanical departments, will be larger and more specific than those of former years and will far surpass anything of the kind ever shown in the west. The manufacturing interests will fairly excel themselves, and the display in the art halls, which will more than double those of former years, embrace a number of paintings in oil and water colors which are finer than are usually intrusted to a fair either for display or premium. The great fair with its varied attractions, including horses from the Columbus, Toledo, Covington and St. Louis racing circuit, constitutes a combination of events which will make the week of Sept. 13 to 18 inclusive the "gala week of the year 1886," not only to the citizens of Fort Wayne, but for the entire northern Indiana.

In the speed ring entries are more numerous this year than ever before in the history of the fair. The most noted flyers in the country have been entered and the races will undoubtedly be the best and most exciting contests ever seen in the west.

### HE TALKS RIGHT.

Editor SENTINEL: "He lapsed in numbers—And the numbering came."

There is one thing that this city needs, yes, very much needs, and this is a re-numbering of the buildings in every street of the city. It never was done, except in a very imperfect manner. As new streets have been laid out and new buildings erected, it has become impossible to find many houses, either from there being no number on them, or from the very "promiscuous" way the numbers are placed on them, and furthermore from the smallness or the faded condition of the figures. For my part I can say, that I suffer great inconvenience from the above named causes. Ever since this place was called a city, with a constantly increasing inconvenience, to call it by its mildest term the people have suffered till the infliction is intolerable, and I now call upon the mayor and common council to remedy this evil, even at the risk of giving some favorite a job. I am not now going to say how this numbering should be done, as the first thing to do is for the council to say that it shall be done, and then for the plans, etc.

I doubt not that I voice the universal sentiment when I say that this numbering must be done. What I have said you may call a lisp, and I hope that as Pope said, "the numbers may come and come right along."

### CHARLESTON.

The Shattered Buildings are Falling.

CHARLESTON, Sept. 10.—There were no shocks last night. Mayor Courtenay has sent out a telegram acknowledging the receipt of contributions and thanking Americans for their generosity. The rains of yesterday have just begun to affect shattered walls, several of which fell to-day. Two hundred and ninety tents were received to-day from the governor of New Jersey and one hundred and sixty-six tents have also been shipped from Ohio.

### A CLEVER CATCH.

Marshal Meyer Bags a \$300 Team of Stolen Horses and the Thief.

Marshal Meyer made the neatest catch this morning that the reportorial fancy has painted in a long while. A day or two ago he received a telegram from Tiffin, Ohio, detailing the theft of a pair of horses from Ephram Norton, a farmer. The chief day officer was in the "look-out chair" and this morning put eyes on his game. He ran on to the fellow on Columbia street and placed him under arrest. The man gave his name as Charley Meyers and said he came from Monroeville. He could not name a man there and Marshal Meyer nailed him. Then the thief weakened and confessed his guilt, saying he had a sick wife in Kansas and after working for Norton two weeks stole the horses to make a stake. He offered the horses, one a light bay six years old and the other a light gray seven years old, for \$240. They are worth every penny of \$300 and will be held here until the Ohio officers arrive for them and the rascal who ran away with them. Meyers rode one horse and led the other. The marshal took from his pocket a receipt for a trunk shipped by express and signed "Samuel Hixon." He will not tell where his home is.

The work in gilding the great dome at Notre Dame, says the *South Bend Times*, is moving rapidly along, and causes that portion of the building to present a magnificent appearance in its gold leaf coating. About 6,000 books of gold leaf will be required, and the cost will be about \$4,000.

A Young Man Quarrels With His Girl and Shoots Himself.

CINCINNATI, Sept. 10.—Golden Smith, the twenty-year-old son of Judge Fayette Smith, attempted to kill himself at his father's residence, in Avondale, yesterday. He had been in school until this summer, when he went into business at Middletown, Ohio. Night before last he came home, and seemed much depressed. Yesterday morning, after breakfast, the family was startled by the report of a pistol coming from his room. When they opened the door he was found lying on the floor with a revolver by his side, and a bullet hole in his left side. The physicians have some hope of his recovery. A quarrel with a young lady to whom he was paying attention is supposed to be the cause of the deed.

### MADE A BREAK.

Jail Delivery at Logansport Yesterday.

LOGANSPORT, Sept. 10.—Yesterday afternoon the alarm was given that the prisoners had broken jail. Prisoners, deputies and citizens could have been seen running to all points of the compass. Joe O'Day, sentenced yesterday to two years in the northern penitentiary, ran over on Broadway and was intercepted and taken in by Mayor Brighurst and John Lux who was coming up the street. Porter awaiting trial on the charge of embezzlement, ran up North street and was brought in by Deputy Palmer. Frank Rice was more successful than the others. He crossed the Wabash river and escaped to the woods in the neighborhood of the new asylum. He was charged with burglary and forgery. They had laid their plans well, having cut the connection that locked the inner door from the outside door. They then came into the outer corridor and then called for water. A girl brought the water, and they sprang forward, shoved her inside, and rushed out. O'Day is to go over the road to-morrow.

**That Terrible Drain**  
Which scrofula has upon the system must be arrested, and the blood must be purified, or serious consequences will ensue. For purifying and vitalizing effects, Hood's Sarsaparilla has been found superior to any other preparation. It expels every trace of impurity from the blood, and bestows new life and vigor upon every function of the body, enabling it to entirely overcome disease.

### AN AIR STEAMER.

The Steam Balloon Invented by William Patterson, San Francisco.

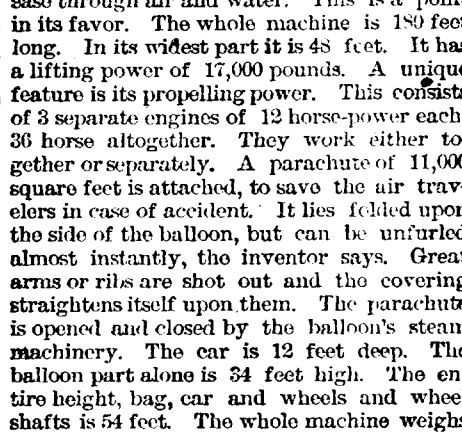

Now comes Professor William Patterson, bridge builder, actor, hunter, squatter, trapper, soldier and inventor, of San Francisco, and solemnly avers that he has constructed a balloon which will float upon the air like an ordinary balloon on the one hand, and on the other will permit itself to be propelled and steered by steam, like a boat upon the water. All must hope that Mr. Patterson's faith will be justified by the results. His balloon may not yet be the particular invention which will solve the problem of air navigation, yet let no one doubt that the problem will be solved. If Professor Patterson does not do it, then somebody else will. This is the age of wonder.

Mr. Patterson has invented a number of articles in his time. One of them is an auger which cuts a square hole. He is a disabled soldier and wears a G. A. R. badge.

For twenty years he has been studying about this steam balloon. He thought by day and dreamed by night. At last his mingled dream and thought have taken material form in the machine shown in the picture.

It will be observed that this balloon, like the steamship and steamboat, takes the shape of a bird or fish, those creatures which travel at ease through air and water. This is a point in its favor. The whole machine is 180 feet long. In its widest part it is 48 feet. It has a lifting power of 17,000 pounds. A unique feature is its propelling power. This consists of 3 separate engines of 12 horse-power each, 36 horse altogether. They work either together or separately. A parachute of 11,000 square feet is attached, to save the air travelers in case of accident. It lies folded upon the side of the balloon, but can be unfurled almost instantly, the inventor says. Great arms or ribs are shot out and the covering straightens itself upon them. The parachute is opened and closed by the balloon's steam machinery. The car is 12 feet deep. The balloon part alone is 34 feet high. The entire height, bag, car and wheels and wheel shafts is 54 feet. The whole machine weighs 9,500 pounds and cost \$15,000.

PATTERSON'S STEAM BALLOON.  
The man who had faith enough in this air steamer to advance money to help build it was not one of the California millionaires, as one might expect. It was a person who was himself a practical aeronaut, Professor Carl Meyer, of New York. The fact that he, with his experience, put in his money to construct the thing, scores a long mark in its favor.

The car part consists of hickory or white ash ribs, veneered with birch. It is divided into three compartments by strong, white cotton sheeting. This prevents the rush of gas to one portion of the balloon. The bag is itself made of the strong, white cotton cloth, of triple thickness at the top. The danger of bursting is thereby lessened.

The bag is inflated in a net of flat woven linen bands, with a three-inch mesh. The netting is attached to the car by iron hooks, caught into eyelets in leather straps.

Professor Patterson has expected for two years to make the attempt to cross the continent from San Francisco to New York, but circumstances have thus far prevented his making the attempt. There is lack of money sufficient to try the experiment, for one thing. This is how it is at present with the bright idea that struck Billy Patterson. The propelling force of the machine is placed immediately at the intersection of the car and balloon, so that both can be controlled by it.

The engine is thus elevated above the bottom of the car. The Herreshoff engine is employed. The wheels that appear below the edge of the car are to catch it when it lands and to roll it upon land. They are attached to bumpers and worked with machinery, so they will not jolt and can be turned about in any direction. The propeller is placed in the rear beneath the car and made of hollow steel covered with green rawhide. Each screw is operated by one of the engines. No ballast is necessary. The balloon is elevated or depressed by means of the screws beneath. At the stern appears the combined rudder and propeller.

Living accommodations are provided within the car. In the bow of the air boat is seen, in the illustration, the mouth of a pipe. This supplies draft to the furnaces. The fuel employed has little bulk. The whole machine is constructed to afford the greatest strength with the least weight.

### Thirst in Hot Weather.

We venture to hope, says the *Lancet* in concluding a careful examination of the subject, that those who are zealously urging the policy of refusing to quench their thirst in this hot weather because "drinking makes people more thirsty," will reconsider their policy from the physiological standpoint, and that they will recognize that to thirst and drink, and perspire and drink again, are the natural steps in the process by which nature strives to maintain the integrity of those organic changes which the external heat has a tendency to impede. The natural and true policy is to supply an adequate quantity of fluid without excess. Therefore, do not abstain from drinking, but drink slowly, so as to allow time for the voice of Nature to cry "enough." There is no drink so good as pure water. For the sake of flavor, and because the vegetable acids are useful, a dash of lemon juice may be added with advantage. The skin should be kept fairly cool, so that a sufficient quantity of the fluid taken may pass off by the kidneys.

"Now it's all right, it's all right, darling," said Mrs. Workhard, "I have tested it thoroughly. Salvation Oil will surely cure your pain in the back."

The people of Ossian, Wells county, are up in arms against a Fort Wayne man who wants to open a saloon there.

He was a man who had grown up amid influences that gave no other idea than that his business was as good as any other, but after this questioning of his heart, he abandoned his business. ## FIRE!

Kendallville Has a \$50,000 Blaze.

The Best Business Part of the Village Entirely Swept Away—The Losses are Given.

A Big Wisconsin Furniture Factory is Burned and 350 Men are Out of Work.

### A BIG BLAZE.

Kendallville Was Almost Destroyed Last Night.

KENDALLVILLE, Sept. 10.—The city was aroused, about midnight last night, as it never, probably, was before by the cry of fire! and the alarm bells. The fire when discovered was blazing out from the rear of Lehman's drug store, on Main street, the sixth door south of the Kelly House. A number of citizens with buckets were soon there, and the chemical engine, spouting against the rear windows, and after the fire broke the glass, partially into the building, but with no effect whatever until almost daylight, when the fire wasted itself.

The fire raged and leaped from building to building until it looked as though the whole town was doomed. The ground is fire-swept around the Kelly house, across the block on the east, and half the block on the south. The house itself is badly scorched and but for the iron shutters on the south side, would have gone with the rest.

An immense quantity of merchandise was carried out of nearly all the commercial houses, and piled upon the opposite side of the street.

It is impossible to make an accurate report of all the losses and losses, but by making estimates from our best information, and reporting the insurance known, the following may approximate the reality:

Arnold estate, loss, \$1,500; insurance, \$1,000.

H. L. Helman, loss, \$300.

Ward & Potter, loss, \$10,000; insurance, \$7,000.

Lewis Holdings, loss, \$4,000; insurance, \$2,000.

Mrs. Swartz, loss, \$4,000; insurance, \$2,000.

Dr. A. S. Abell, loss, \$4,000; insurance, \$1,000.

L. S. Abell, loss, \$1,000; insurance, \$2,000.

G. L. Lehman, loss, \$6,000; insurance, \$2,000.

Dr. S. T. Williams, loss, \$2,500.

Trust estate, loss, \$4,000; insurance, \$2,500.

John Emerson, loss, \$2,500; insurance, \$800.

H. P. Sovereance, loss, \$1,000; insurance, \$1,000.

G. P. Alexander, loss, \$500; insurance, \$2,500.

Hall & Loeb, loss, \$1,500; insurance, \$1,000.

T. L. Graves, loss, \$500.

M. M. Brown, loss, \$300.

Banta Green, loss, \$1,000.

Kelly house, loss, \$1,000; insurance, \$1,000.

C. Tryon, loss, \$300.

Baker & Son, loss, not known.

Mrs. Bates, loss, \$300.

Carpenter Bros., loss, \$100.

Total loss, \$50,000.

It was heroic work that saved the Kelly house.

The wooden shanties in the rear of good buildings is what played the mischief.

The cause of the fire is unknown.

The citizens generally worked heroically.

A fairly good fire engine could have saved the wreck.

There are many sad cases among the sufferers.

### FIRE RECORD.

## DR. J. W. YOUNGE.

His Symptoms are Worse This Morning and Inflammatory Fever Manifests Itself.

Interest in the Swann-Youngs shoot off affray continues unabated. Public sentiment is divided between the principals and most extreme and radical views are expressed on both sides.

Last night Dr. Youngs had two chills and these are indicative of using trouble. The consulting surgeons, Drs. W. H. and J. S. Meyers, Dr. A. E. Van Buren, and Dr. Barnett, met at Dr. Youngs' home and found indications of inflammation and approaching fever in the abdominal region. There is much tension manifested and the troubles seem to develop in front, as the wound in the back has a healthy appearance.

"Then you consider him worse?" was put at Dr. Van Buren.

"Yes," was the reply. "He is much worse and the case presents a dangerous aspect. His temperature is increased to 101, a degree and a half higher than yesterday, and his pulse is 96. The patient is in both a dangerous and exceedingly bad way."

"Dr. Youngs is worse," said Dr. H. S. Meyers, "and there are symptoms of fever and constitutional trouble that increases his recovery severely. I should not say he must die, but I cannot assure you of his recovery."

Prosecuting Attorney Dawson says that Captain Swann's own will come before the grand jury to-morrow, when he will ask for an indictment against him for attempting to kill Dr. Youngs. The charge of murder can be sustained if Dr. Youngs dies inside of a year and one day. Captain Swann prefers to await the state's attorney's pleasure and remains in Sheriff Nelson's custody.

### FRUIT SOCIAL.

The Mission Band's fruit social held in the parlors of the Third Presbyterian church, proved successful on last evening. The performance consisted of music and recitations on missionary lands and the customs of the people. The Mission Band are greatly encouraged in their noble undertaking and grateful for the hearty and substantial aid received.

This will swell the county central committee membership twelve, making a total of forty-two.

The Wabash, if reorganized as proposed, will begin its career under a heavy burden. At best its funded debt will be \$75,000,000 in round numbers; in addition there is a floating debt of \$7,000,000, of which amount the court has already decided that \$4,000,000 must be paid before the reorganization scheme can be perfected, and the remaining \$3,000,000 are unadjusted claims, a large portion of which the new company will themselves have to pay.

## THE COMING FAIR.

The Attractions of the Week—Some Fine Races Assured.

The lays of hamsters and the buzz and rapping of saws in the hands of workmen greet the ear of the visitor this week at the attractive grounds of the Inter-State Fair association. The fair managers, exhibitors of agricultural implements and the holders of lunch and dining room privileges, are all busy building, painting, whitewashing, and in every way pushing the work necessary to be done before the great opening day, September 14. The managers and exhibitors in the perfection of those arrangements are a week ahead of any preceding year, and on Tuesday morning next the fifth annual Inter-State Fair and Exposition will open to the public. Completeness in every detail will characterize the fair this year. The exhibits, in every department, and especially the agricultural implement and mechanical departments, will be larger and more specific than those of former years and will far surpass anything of the kind ever shown in the west. The manufacturing interests will fairly excel themselves, and the display in the art halls, which will more than double those of former years, embrace a number of paintings in oil and water colors which are finer than are usually entrusted to a fair either for display or premium. The great fair with its varied attractions, including horses from the Columbus, Toledo, Covington and St. Louis racing circuits, constitutes a combination of events which will make the week of Sept. 13 to 18 inclusive the "gold week of the year 1886," not only to the citizens of Fort Wayne, but for the entire northern Indiana.

In the speed ring entries are more numerous this year than ever before in the history of the fair. The most noted flyers in the country have been entered and the races will undoubtedly be the best and most exciting contests ever seen in the west.

### DETAILS RIGHT.

Editor Sentinel:—  
"He played in numbers—  
And the number name."

There is one thing that this city needs, yes, very much needs, and this is a renumbering of the buildings in every street of the city. It never was done, except in a very imperfect manner. As new streets have been laid out and new buildings erected, it has become impossible to find many houses, either from there being no number on them, or from the very "promiscuous" way the numbers are placed on them, and furthermore from the smallness or the faded condition of the figures. For my part I can say, that I suffer great inconvenience from the above named causes. Ever since this place was called a city, with a constantly increasing inconvenience, to call it by its middle term the people have suffered till the indignity is intolerable, and I now call upon the mayor and common council to remedy this evil, even at the risk of giving some favorite a job. I am not now going to say how this numbering should be done, as the first thing to do is for the council to say that it shall be done, and then for the plans, etc.

I doubt not that I voice the universal sentiment when I say that this numbering must be done. What I have said you may call a blip, and I hope that as Pope said, "the numbers may come and come right along."

## A CLEVER CATCH.

Marshal Meyer Bags a \$300 Team of Stolen Horses and the Thief.

Marshal Meyer made the neatest catch this morning that the reportorial fancy has printed in a long while. A day or two ago he received a telegram from Tiffin, Ohio, detailing the theft of a pair of horses from Ephram Norton, a farmer. The chief day officer was in the "look-out chair" and this morning put eyes on his game. He ran on to the fellow on Columbia street and placed him under arrest. The man gave his name as "Charley Meyers" and said he came from Monroeville. He could not name a man there and Marshal Meyer called him. Then the thief weakened and confessed his guilt, saying he had a sick wife in Kansas and after working for Norton two weeks stole the horses to make a shake. He offered the horses, one a light bay six years old and the other a light gray seven years old, for \$240. They are worth every penny of \$300 and will be held here until the Ohio officers arrive for them and the rascal will run away with them. Meyers rode one horse and left the other. The marshal took from his pocket a receipt for a trunk shipped by express and signed "Samuel Nixon." He will not tell where his home is.

And the Son of a Judge Shoots Himself to End Thoughts of His Sweetheart.

The Prisoners of the Logansport Jail make a Bold Dash for Liberty.

### ATTEMPTS SUICIDE.

A Young Man Quarrels With His Girl and Shoots Himself.

CINCINNATI, Sept. 10.—Golden Smith, the twenty-year-old son of Judge Fayette Smith, attempted to kill himself at his father's residence, in Avondale, yesterday. He had been to school until this summer, when he went into business at Middletown, Ohio. Night before last he came home, and seemed much depressed. Yesterday morning, after breakfast, the family was startled by the report of a pistol coming from his room. When they opened the door he was found lying on the floor with a revolver by his side, and a bullet hole in his left side. The physicians have some hopes of his recovery. A quarrel with a young lady to whom he was paying attention is supposed to be the cause of the deed.

### MADE A BREAK.

Jail Delivery at Logansport Yesterday.

LOGANSPORT, Sept. 10.—Yesterday afternoon the alarm was given that the prisoners had broken jail. Prisoners, deputies and citizens could have been seen running to all points of the compass. Joe O'Day, sentenced yesterday to two years in the northern penitentiary, ran over on Broadway and was intercepted and taken in by Mayor Brighthouse and John Lux who was coming up the street. Porter awaiting trial on the charge of embezzlement, ran up North street and was brought in by Deputy Palmer. Frank Rice was more successful than the others. He crossed the Wabash river and escaped to the woods in the neighborhood of the new asylum. He was charged with burglary and forgery. They had laid their plans well, having cut the connection that locked the inner door from the outside door. They then came into the outer corridor and then called for water. A girl brought the water, and they sprang forward, shoved her inside, and rushed out. O'Day is to go over the road to-morrow.

Thirst in Hot Weather.

We venture to hope, says the *Lancet* in concluding a careful examination of the subject, that those who are zealous of the policy of refusing to quench their thirst in this hot weather because "drinking makes people more thirsty," will reconsider their policy from the physiological standpoint, and that they will recognize that to thirst and drink, and perspire and drink again, are the natural steps in the process by which nature strives to maintain the integrity of those organic changes which the external heat has a tendency to impede. The natural and true policy is to supply an adequate quantity of fluid without excess. Therefore, do not abstain from drinking, but drink slowly, so as to allow time for the voice of Nature to cry "enough." There is no drink so good as pure water. For the sake of flavor, and because the vegetable acids are useful, a dash of lemon juice may be added with advantage. The skin should be kept fairly cool, so that a sufficient quantity of the fluid taken may pass off by the kidneys.

"Now it's all right, it's all right, darling," said Mrs. Worthington, "I have tested it thoroughly. Salvation Oil will surely cure your pain in the back."

The people of Ontario, Wells county, are up in arms against a Fort Wayne man who wants to open a saloon there.

If you have catarrh, use this surest remedy—Dr. Sage's.

He was a man who had grown up amid influences that gave no other idea than that his business was as good as any other, but after this questioning of his heart, he abandoned his business.
